Finally, no public health text would be complete absent a look at "Healthcare Systems and Services." The final part of this book accordingly covers the issues of accessing and ensuring respectful health care for LGBT groups that have traditionally experienced the greatest barriers in U.S. systems: racial/ethnic minorities, transgender people, and youths. HIV/AIDS has been a major, and predominant, area of investigation in gay men's health research. Many books have been published to provide the reader good reviews of various areas of research within public health work on HIV/AIDS. Journal of the Gay and Lesbian Medical Association 4: 102-151.
