

## The Miseducation of Black Children

By G. Shockley

African American Images. Paperback. Book Condition: new. BRAND NEW, The Miseducation of Black Children, G. Shockley, Parents and teachers of black children who wish to confront the failures of the education system that have not been remedied by the No Child Left Behind Act will appreciate this dissection of the root issues affecting academic achievement. Postulating that teachers' expectations of black children are too low, the book argues the importance of nurturing needy students even under non-discriminatory standardisation policies that can help raise a school's overall level of excellence. It also addresses the problem of new teachers not being adequately educated to understand the wide variety of learning styles, therefore unintentionally eliminating the best methods to reach a child. Finally, by pinpointing the irrelevance of certain aspects of the curriculum to particular subsets of students, the book makes a powerful argument that black children could be better educated with a more directed approach.

The miseducation of Black children via public schools with QUE BUTTER. 97 Views. 0. Examining the necessity and utility of an African-centered education for Black students, the book *The Miseducation of Black Children*, by Dr. Kmt G. Shockley, defines Africentricity, explains the miseducation of various groups, explores Africa from a historical and cultural standpoint, and offers practical solutions for correcting the miseducation of Blacks. This book illustrates the significant effect and influence of Eurocentric values and a Westernized education system on the academic progress of Black children (carefully separating education and schooling). The author poses the question: "What does it mean for a Black child to perform well within a school system and on standardized tests that are historically and inherently designed to prove and maintain white supremacy?" (p. 12). Educators, childcare providers, and parents discuss the importance of having black and Afrocentric based schools where our children can learn about who they are, where they are coming from, and how they can use their education/training to become intelligent people, responsible citizens, financially successful and leaders within their communities. We will also discuss the school to prison pipeline, homeschooling, private schools, special education, black teachers in the classroom and more.

While tabloid coverage of these creatures has claimed that tales of black-eyed children have existed since the 1980s, most sources indicate that the legend originated from 1996 postings written by Texas reporter Brian
