The development of academic advising parallels the history of higher education and reflects decades of student personnel work. Changes in funding, curricula, students, and faculty roles have all affected the means by which students have been advised. The evolution of advising eventually led to the formation of NACADA in 1979. Since 2001, when I last documented the history of academic advising in the *Mentor*, I have expanded the benchmark information and references. I also added key advising events in the new millennium.

Transfer Events Calendar - Many times during the year, colleges and universities send recruiters to our campuses, as part of a college transfer fair or for individual visits. This electronic events calendar can help you be aware of your advisees' op... Northern Virginia Community College Academic Advising Resources. <http://www.nvcc.edu/faculty-and-staff/academic-advising/>. In-State Tuition New students coming or transferring to NOVA must be aware that in-state eligibility must be established before the beginning of a term. If this is not done, and a student learns that s/he is eligible for in-state tuition in the middle of a term, that condition is not applied retroactively, but rather is granted in the next term. In this list we

explore an event from each decade in U.S. history that has shaped the country. Read on to find out more about the signing of the U.S. Constitution, the Louisiana Purchase, the Dred Scott decision, the assassination of Martin Luther King, Jr., and more. Jeff Wallenfeldt, manager of Geography and History, has worked as an editor at Encyclopaedia Britannica since 1992. Library of Congress, Washington, D.C. (LC-USZC2-3796). Dividing history into decades is an arbitrary but sometimes very useful way of trying to understand the arcs and significance of events. Trying to identify any single event as crucial to the understanding of a given decade may be even more arbitrary. It is certainly subjective. Nevertheless, that attempt can at the very least be a catalyst for discussion. "Academic advising is a developmental process which assists students in the clarification of their life/career goals and in the development of educational plans for the realization of these goals. It is a decision-making process by which students realize their maximum educational potential through communication and information exchanges with an advisor; it is ongoing, multifaceted, and the responsibility of both student and advisor. November 4, 1999. Academic advising is a process of information exchange that empowers students to realize their maximum educational potential. The advising process is student-centered and will result in the student gaining a clearer understanding of himself/herself, and the experience of higher education. David S. Crockett, Ed. These events were those that brought the nation together, and in some cases, ripped people apart. They created buzz across the land when they occurred, and when the technology was great enough, had families, and in some cases entire towns, gathered around their television sets and radios. Though some of these events happened decades before we were born, that doesn't mean that they cannot still impact us today, and the United States that we live in now, was shaped by these events. In other words, without the tragedy, wars, leadership and patriotism, the United States that we know today would ha
