Finally, the book examines the influence of U.S. policy and of regionalization and globalization on the Latin American states. View. In 1984 George Orwell pictured a world divided between three rival totalitarian powers – Eastasia, Oceania, and Eurasia. It was a condition of perpetual war and total mobilization, in which two of the powers were always fighting the third. Its thirteen chapters examine the crisis in three periods: the unraveling of Punto Fijo democracy; Chvez's Bolivarian Revolution; and the course of "participatory democracy" under Chvez. The contributors analyze such factors as the vulnerability of Venezuelan democracy before Chvez; the role of political parties, organized labor, the urban poor, the military, and businessmen; and the impact of public and economic policy. Bibliography, as a discipline, is traditionally the academic study of books as physical, cultural objects; in this sense, it is also known as bibliology (from Ancient Greek: βιβλίον, romanized: -bibliōn). Carter and Barker (2010) describe bibliography as a twofold scholarly discipline – the organized listing of books (enumerative bibliography) and the systematic description of books as objects (descriptive bibliography). It provides maps of the major world regions, flags of the World, political maps of the World, world oceans map as well as standard time zones of the world map. 55. Europe PMC Europe PMC is an archive of life sciences journal literature. It offers free access to a large and growing collection of biomedical research literature. It serves researchers and scholars in the mathematical sciences by providing peer-reviewed articles and books. 71. African Journals Online (AJOL) AJOL is the world's largest online library of peer-reviewed, African-published scholarly journals. With AJOL, you can browse peer-reviewed journals from Africa and download full text articles.
