Corporate and Commercial Law " global update. Winter 2017/Spring 2018. Law " passion for excellence. Editorial. Law " passion for excellence. Dear reader, We are pleased to present the Winter 2017/Spring 2018 edition of our Corporate and Commercial Law global update. The articles in this Corporate and Commercial Law global update reflect the global reach of Law at EY as well as the diversity of our legal services. If you wish to receive more detailed information on Law in the global EY network or on the topics discussed in this issue, please feel free to reach out to us. You will find contact details for each of the countries where EY member firms offer Law services at the back of this publication. Kind regards

The law generally allows deductions for all costs associated with taxable activities in Bahrain, such as the cost of production, refinement, remuneration of employees associated with these taxable activities (including social insurance and pensions paid for the benefit of these employees), and other operational losses. The corporate tax rate is 24% in 2017, and will be 23% in 2018. Business operations qualifying under the Encouragement of Capital Investments Law are entitled to reduced rates of tax depending upon their location and other conditions (see the Tax credits and incentives section). When introducing our 2017 Corporate Social Responsibility report, I said that there is always room to do more. This is now our third report and I have never been so proud of what our people achieved during this year. We have definitely done more. Introduced in 2017, the myidea program continued in 2018. It ties together existing initiatives such as "10%" or our annual "Hackathon", to provide support and flexibility needed to turn employees' ideas into reality. Employees are invited to submit their ideas related to product innovation, revenue generation, profit optimization, or business efficiency. All reports are kept confidential as permitted under applicable law.
