

## Gifts, Grants, and Contracts for November 2008

The following gifts, grants and contracts received by all campuses during the period November 1, 2008 through November 30, 2008 total \$28,990,381.

**This report is also available for viewing at: [http://www.hawaii.edu/ors/Board\\_Reports.htm](http://www.hawaii.edu/ors/Board_Reports.htm)**

### Research

#### DA-Dept of Agriculture

Department of Agriculture \$35,000

High Resolution Fire Weather Forecasts for Hawaii

Yi-Leng Chen

Department of Meteorology

This amendment continues work toward the long-term objective of providing high resolution weather modeling support for fire management applications in Hawaii. This work will be done in collaboration with NOAA NWS efforts to apply high resolution weather forecasting for risk assessment of natural disasters such as wildfire in Hawaii.

Department of Agriculture \$233,103

Collaborative Effort: Aquaculture and Livestock

William Steiner

College of Agriculture, Forestry-UHH

Examine the feasibility of developing specific goat breeds and hybrid Australian Milling Zebu cattle (Phase I)

#### DHHS-Dept of Health and Human Services

National Center on Minority Health and Health Disparities/NIH/DHHS \$416,651

Culturally Competent Telemedicine for Type 2 Diabetes in Native & Pacific Peoples

Marjorie K H Mau

Department of Native Hawaiian Health

The proposed administrative supplement seeks to develop and test a culturally competent telemedicine model of chronic disease management for type 2 diabetes in rural, medically underserved Native and Pacific communities.

National Institute of Child Health and Human Development/NIH/DHHS \$1,000,000

National Children's Study University of Hawaii Study Center - Honolulu County

Lynnae K Millar

Department of Obstetrics, Gynecology, and Women's Health

Our objective is to be part of the National Children's Study (NCS) and contribute to the planned cohort study examining the effects of environmental influences on the health and development of approximately 100,000 children.

National Institute of Diabetes and Digestive and Kidney Diseases/NIH/DHHS \$203,448

Nutritional Risk Factors for Type 2 Diabetes in the Multiethnic Cohort

Gertraud Maskarinec

Cancer Research Center

Link the Multiethnic Cohort with a list of identified diabetes patients from the 2 major insures in Hawaii. Determine the prevalence and incidence of diabetes among Caucasians, Japanese, and Native Hawaiians in the linked dataset. Evaluate the association of overweight, obesity, weight change since 21, and physical activity with the occurrence of diabetes by ethnic groups.

National Institutes of Health/DHHS \$579,743

Malarial Immunity in Pregnant Cameroonian Women

Diane W. Taylor

Dept of Trop Med, Medical Microbiology and Pharmacology

The study evaluates the influence of an antimalarial drug on the immune response of pregnant Cameroonian women to malaria. Specifically, it will determine if treatment decreases immunity that aids in eliminating parasite from the placenta, pathology associated with low birthweight babies, and alters immunity to malaria in babies.

National Institutes of Health/DHHS \$170,392

Neurodevelopment of Methamphetamine Exposure of Children

Donald C Derauf

Department of Pediatrics

The mentored patient oriented research career development award will allow Dr. Derauf protected time and

## Gifts, Grants, and Contracts for November 2008

### Research

#### DHHS-Dept of Health and Human Services

support to develop the expertise needed to transition his career from one primarily focused on clinical service, teaching and administration to one focused on independent research and clinical program development.

National Institutes of Health/DHHS	\$768,629
<u>Enhancement of Research Infrastructure at UH Hilo (RIMI)</u>	
Rose Tseng	Chancellor, University of Hawaii at Hilo-UHH

#### DOD-Department of Defense

DOD-Advanced Research Project Agency	\$27
<u>Evaluation of Hyles lineata and Daphnis neril Sphinx Moths as Model Organisms for Hybrid Insect MEMS Technology</u>	
Daniel Z Rubinoff	Department of Plant and Environmental Protection Sciences
Develop and evaluate three insect species as MEMS hybrid models.	

DOD-Center for Excellence - DMHA	\$69,948
<u>Disaster Management Graduate Certificate Course - Responsive Quotation</u>	
Karl E Kim	Department of Urban and Regional Planning
To work on disaster management certificate program to include migration of the International Committee of the Red Cross Health Emergencies in Large Populations (HELP) course curriculum into the university academic offerings.	

DOD-US Army Medical Research & Material Command	-\$33
<u>Bioterrorism Preparedness Infectious Disease</u>	
Lawrence P A Burgess	John A. Burns School of Medicine
Provide education and training in support of the Asia-Pacific Military Medical Conference, Hanoi, Vietnam, 9-13 May 2005.	

Department of the Air Force	\$29,116
<u>Operations and Management of the Maui High Performance Computing Center</u>	
David K Lassner	Information Technology Services
Cost reimbursement award term contract for research, development, operations and management of the Maui Supercoming Center.	

Department of the Air Force	\$31,694
<u>Operations and Management of the Maui High Performance Computing Center</u>	
David K Lassner	Information Technology Services
Cost reimbursement award term contract for research, development, operations and management of the Maui Supercoming Center.	

## Gifts, Grants, and Contracts for November 2008

### Research

#### DOD-Department of Defense

Office of Naval Research \$85,500  
Enhanced Tactical Fuel Design: Fundamental Combustion Studies of Boron Nanoparticle Multi-component Fuel (University of Hawaii Component)  
 Stephen M Masutani Hawaii Natural Energy Institute  
 Investigation of the combustion characteristics of a slurry comprising a mixture of a liquid fuel and coated boron nanoparticles to enhance energy content.

#### DOE-Dept of Energy

Department of Energy \$220,000  
Hydrogen Fuel Contaminant Studies for PEM Fuel Cells  
 Richard E Rocheleau Hawaii Natural Energy Institute  
 Testing and analysis to characterize the effect of low level contaminants on PEM fuel cells.

### Foreign

Bio-ON \$389,161  
PHA Bioplastics Production from Sugar Manufacturing Residues  
 Jian Yu Hawaii Natural Energy Institute  
 Design of a pre-industrial scale pilot-plant for technology commercialization including optimization of process conditions

Japan Ecologia Co.Ltd \$3,030  
Antifouling testing of new coatings  
 Michael G Hadfield Pacific Biosciences Research Center  
 Analysis of coated slides provided by Japan Ecologia to determine the percent of *Hydroides elegans* larvae that settle on the slide; conduct experiments to determine forces necessary to dislodge the settled worms

### Hawaii- Business and Other

BioEco Tek - Hawaii \$50,000  
Research Pathways for Microalgal Processing  
 Michael J Cooney Hawaii Natural Energy Institute  
 Develop energy, water and cost affordable technologies to process microalgal biomass into renewable fuels

HR Biopetroleum \$73,170  
Pre-Screening of Algal Strains for Optimal Biomass and Lipid Potential: Selection of Viable Candidates for High-Throughput Screening  
 Zackary I Johnson Department of Oceanography  
 Review and selection of candidate species of algal strains with the greatest potential for high biomass and lipid production

HR Biopetroleum \$1,441,104  
High-Throughput Screening (HTS) of Algal Strains for Optimal Biomass and Lipid Production  
 Zackary I Johnson Department of Oceanography  
 High-throughput screening of preselected algal strains for commercial lipid production

## Gifts, Grants, and Contracts for November 2008

### Research

#### Hawaii- Government Agencies

Hawaii Invasive Species Council	\$69,728
<u>An Early Detection System for Invasive Species: Development and Proof-of-Concept of a Taxonomic Microarray</u>	
Robert J Toonen	Hawaii Institute of Marine Biology
Proof-of-concept on developing a taxonomic DNA chip for the early detection of invasive species entering Hawaii via maritime vessel traffic.	
Hawaii Invasive Species Council	\$36,049
<u>Evaluating Impact of Puccinia Psidii Rust Strains on Ohia</u>	
Janice Y Uchida	Department of Plant and Environmental Protection Sciences
Collect rust samples from various host plants in the Myrtaceae family. Conduct molecular analysis of samples to determine the number of species present in the Hawaii population.	
Hawaii-Dept of Health	-\$41,416
<u>ADAD Statewide School Complex Treatment Evaluation</u>	
Deborah A Goebert	Department of Psychiatry
Conduct a statewide school complex treatment evaluation for the Department of Health, Alcohol and Drug Abuse Division.	
Hawaii-Dept of Health	\$41,416
<u>ADAD Statewide School Complex Treatment Evaluation</u>	
Deborah A Goebert	Department of Psychiatry
Conduct a statewide school complex treatment evaluation for the Department of Health, Alcohol and Drug Abuse Division.	
Hawaii-Dept of Health	\$109,811
<u>ADAD Statewide School Complex Treatment Evaluation</u>	
Deborah A Goebert	Department of Psychiatry
Conduct a statewide school complex treatment evaluation for the Department of Health, Alcohol and Drug Abuse Division.	
Hawaii-Dept of Land & Natural Resources	\$100,000
<u>Coastal Lands Data Program</u>	
Charles H Fletcher	Department of Geology and Geophysics
Provide for development, management and dissemination of coastal data and research products for the DLNR Office of Conservation and Coastal lands as outlined in the memorandum of agreement to help it in its efforts to protect and conserve beaches and dunes for present and future generations.	
Hawaii-Dept of Land & Natural Resources	\$16,000
<u>Database: Pacific Weed Risk Assessment</u>	
Sharon Ziegler-Chong	Pacific Aquaculture-UHH
Hawaii-Dept of Land & Natural Resources	\$270,385
<u>Kauai Endangered Seabird Conservation Research and Management</u>	
David C Duffy	Department of Botany
Conduct research on the populations of endangered Kauai seabirds and make recommendations for conservation strategies.	

## Gifts, Grants, and Contracts for November 2008

### Research

#### Hawaii- Government Agencies

Hawaii-Dept of Land & Natural Resources	\$9,531
<u>Threatened &amp; Endangered Species Recovery: Kauai: 2008 Supplement</u>	
David C Duffy	Department of Botany
Conduct applied field research to promote recovery of Kauai's threatened and endangered species.	
Hawaii-Dept of Land & Natural Resources	\$493,076
<u>Detection and Control of Invasive Species on the Island of Hawaii</u>	
David C Duffy	Department of Botany
Continue Big Island Invasive Species Committee's efforts to contain damaging invasive species on the Big Island.	
Hawaii-Dept of Land & Natural Resources	\$75,000
<u>Maui Invasive Species Committee: Coqui Frogs: Overcoming Site Limitations</u>	
David C Duffy	Department of Botany
Conduct citric acid sprays on 10 coqui frog-infested test sites in the Maliko Gulch on Maui, and measure changes to frog population density.	
Hawaii-Dept of Land & Natural Resources	\$9,495
<u>Technical Support for Miconia Studies</u>	
David C Duffy	Department of Botany
Conduct comparative research Miconia's collateral effects on the environment in Tahiti and Hawaii.	
Hawaii-Dept of Land & Natural Resources	\$348,106
<u>Protection of Core Watershed Forests of Southern Haleakala</u>	
Clifford W Morden	Department of Botany
Conduct restoration and management-based research in the watershed forests on Southern Haleakala.	
Hawaii-Dept of Land & Natural Resources	\$50,000
<u>Detection and Control of Invasive Species in Wao Kele o Puna on the Island of Hawaii</u>	
David C Duffy	Department of Botany
Survey and control invasive species in the forest reserve of Wao Kele o Puna on the island of Hawaii.	
Hawaii-Dept of Transportation	\$24,237
<u>Five Year Monitoring of Corrosion Field Specimens</u>	
Ian N Robertson	Department of Civil and Environmental Engineering
This project involves monitoring the performance of reinforcing steel in concrete panels exposed to marine environments. Various corrosion inhibiting measures will be evaluated.	

#### Hawaii- Health Organizations

Kuakini Medical Cntr	\$75,389
<u>Kuakini Medical Center Subaward for Research Grant: Epidemiology of Brain Aging in the Very Old, NIH Grant No: 2UCAC019349-06A1</u>	
Elizabeth K Tam	Department of Medicine
Dr. McMurtray will be performing neurological examinations of cohort members on the "Epidemiology of Brain Aging in the Very Old" Project.	

## Gifts, Grants, and Contracts for November 2008

### Research

#### Hawaii- Non-Profit Organizations

Univ of Hawaii Foundation	\$4,600
<u>Collaborative Software Development Laboratory Fund</u>	
Philip M Johnson	Department of Information and Computer Sciences
Perform research on automated software engineering process and product collection, analysis, interpretation, and dissemination using the Hackstat Framework.	
Univ of Hawaii Foundation	\$112,000
<u>W.M. Keck Research Center in Astrochemistry at UHM</u>	
Ralf Ingo Kaiser	Department of Chemistry
To set up a laboratory in astrochemistry.	
Univ of Hawaii Foundation	\$4,370
<u>Japanese Language Socialization in Homestay Context</u>	
Haruko Minegishi Cook	Department of East Asian Languages and Literatures
Transcriptions of video-recorded conversations between learners of Japanese and their host families.	

#### Mainland- Business and Other

Algenol Biofuels, Inc.	\$303,340
<u>Collaborative Services Plan: Cyanobacteria for Commercial Ethanol Production</u>	
Charles O'Kelly	Department of Botany
Screen the 2000-plus cyanobacteria collection of the Hawaii Microbial Culture Center for (a) strains that are promising for use in ethanol production, and (b) strains with physiological characteristics that may enhance the productivity of strains used in commercial ethanol production	
Allergan Inc	\$450,000
<u>Biophysical Studies on Botulinum Neurotoxin based on Fluorescence Correlation Spectroscopy</u>	
David M Jameson	Dept Anatomy, Biochemistry, Physiology and Reproductive Biol
Biophysical characterization of the botulinum toxin protein using advanced fluorescence methods	
American Biodiesel	\$36,286
<u>Efficient Processing of Algal Bio-oils for Biodiesel Production</u>	
Michael J Cooney	Department of Ocean and Resources Engineering
Evaluation of new processes to produce biodiesel from microalgal lipids to determine an energy-efficient process microalgae grown on sugar waste	
Cellana LLC	\$430,251
<u>Pre-Screening of Algal Strains for Optimal Biomass and Lipid Potential: Selection of Viable Candidates for High-Throughput Screening</u>	
Zackary I Johnson	Department of Oceanography
Review and selection of candidate species of algal strains with the greatest potential for high biomass and lipid production	

## Gifts, Grants, and Contracts for November 2008

### Research

#### Mainland- Business and Other

Cellana LLC	\$2,527,665
<u>High Throughput Screening (HTS) of Algal Strains for Optimal Biomass and Lipid Production</u>	
Zackary I Johnson	Department of Oceanography
High Throughput Screening of preselected algal strains for commercial lipid production	
Cellana LLC	\$535,122
<u>Biochemical Characterization of Marine Microalgae for Optimal Biomass and Lipid Production</u>	
Robert R Bidigare	Hawaii Institute of Marine Biology
Isolation and identification of novel microalgae aimed at enhancing lipid content	
Dow AgroSciences	\$17,500
<u>Evaluation of Subterranean Termite Behavior and Control</u>	
Jack Kenneth Grace	Department of Plant and Environmental Protection Sciences
Evaluation of behaviorally-based methods of subterranean termite control	
Eli Lilly & Co	\$33,425
<u>A Randomized Trial Comparing Exenatide with Placebo in Subjects with Type 2 Diabetes on Insulin Glargine w/or Without oral Antihyperglycemic Medication</u>	
Richard F Arakaki	Department of Medicine
Eli Lilly H80-US-GWCO: The purpose of this study is to help determine whether the drug exenatide, when added to a treatment regimen of insulin glargine (alone or in combination w/metformin and/or pioglitazone), will improve blood sugar levels in patients with type 2 diabetes.	
Expert Microsystems Inc	\$23,367
<u>Prognostic Battery Remaining Life Model</u>	
Bor Yann Liaw	Hawaii Natural Energy Institute
Development of a prognostic battery remaining life model for autonomic logistics in distributed information systems	
Gilead Sciences, Inc	\$101,401
<u>A Multi-center, Randomized, Double-Blind, Double-Dummy, Phase 3 Study of the Safety and Efficacy of Ritonavir-Boosted Elvitegravir (EVG/r) Versus Ralte</u>	
Cecilia M Shikuma	Department of Medicine
To test experimental HIV drug therapy on human subjects.	
Health Research, Inc	\$185,220
<u>Chemical Markers of Heterocyclic Aromatic Amines for Human Biomonitoring</u>	
Loic Le Marchand	Cancer Research Center
Establish noninvasive chemical markers of heterocyclic aromatic amines (HAAs) to allow for an assessment of long-term HAA exposure through the diet to determine cancer risk.	
Indigo Seafood	\$1,677
<u>Infauna of Subtidal Sands off the Kona Coast, Hawaii</u>	
Julie H Bailey-Brock	Department of Zoology
Provide an analysis of the sand-dwelling fauna at a location being considered for cage aquaculture	

## Gifts, Grants, and Contracts for November 2008

### Research

#### Mainland- Business and Other

<p>Lightspin Technologies</p> <p><u>Time Resolved Spectrometer FPA Readout</u></p> <p>Gary S Varner                                      Department of Physics and Astronomy</p> <p>Design and characterize CMOS ASIC and supporting interface electronics</p>	<p>\$150,000</p>
<p>Malin Space Science Systems</p> <p><u>University of Hawai'i Participation in: MAHLI - MArs HandLens Imager for the Mars Science Laboratory</u></p> <p>Scott K Rowland                                      Hawaii Institute of Geophysics and Planetology</p> <p>This is the University of Hawai'i portion of a multi-institution proposal. The project will build, test, and operate on Mars, a camera for producing close-up images of rocks. These close-up images will allow the team to identify the rock types, and from this, be able to understand some of the geologic processes that have taken place on Mars.</p>	<p>\$27,712</p>
<p>Nature Conservancy</p> <p><u>Direct ULV herbicide applications for controlling Australian Tree Fern in native watersheds on the island of Kauai</u></p> <p>James Leary    College of Tropical Agriculture and Human Resources</p> <p>Determine chemical combinations effective in controlling Australian Tree Fern minimal environmental impact to the surrounding environment</p>	<p>\$8,430</p>
<p>Novartis Pharmaceuticals Corp</p> <p><u>Novartis Pharmaceuticals Corporation CLAF237A23138E1 - 'A 28-Week Extension to a 24-Week Multi-Center, Randomized, Double-Blind, Active-Controlled, '</u></p> <p>Richard F Arakaki                                      Department of Medicine</p> <p>This study will determine the safety and efficacy of the study drug, vildagliptin, in patients with type 2 diabetes and severe kidney damage.</p>	<p>\$8,860</p>
<p>Rockwell Scientific Company LLC</p> <p><u>Repeat Testing of Banded Arrays</u></p> <p>Donald N Hall    Institute for Astronomy</p> <p>Performance testing of banded arrays for use with the James Webb Space Telescope project.</p>	<p>-\$176</p>
<p>Space Telescope Science Institute</p> <p><u>Comprehensive Theoretical UV-optical Diagnostics for STIS and COS</u></p> <p>Lisa J Kewley    Institute for Astronomy</p> <p>We propose to exploit the recent major advances in theoretical stellar atmospheres, stellar population synthesis, and photoionization models to create the first consistent theoretical suite of UV-optical emission and absorption diagnostics.</p>	<p>\$81,599</p>
<p>Williamson and Associates, Inc</p> <p><u>Trans-Pacific Mapping of the Great Circle Route</u></p> <p>Margaret H Edwards                                      Hawaii Institute of Geophysics and Planetology</p> <p>MR1 mapping of the deep ocean sea floor across the Northern Pacific Ocean for general reconnaissance.</p>	<p>\$507,083</p>

## Gifts, Grants, and Contracts for November 2008

### Research

#### Mainland- Health Organizations

Women & Infants Hospital of Rhode Island \$289,588  
Prenatal Methamphetamine Exposure and School Aged Outcome (IDEAL II)  
 Donald C Derauf Department of Pediatrics  
 The major goal of this project is to study the effects of prenatal methamphetamine exposure on child outcomes.

#### Mainland- Non-Profit Organizations

Kellogg (W. K.) Foundation \$375,000  
KLCC Longitudinal Evaluation  
 Maenette KP Benham Hawai'inuiakea School of Hawaiian Knowledge  
 The Kellogg Leadership for Community Change series provides a unique opportunity to assess how a group leadership development experience can contribute to improving conditions in communities.

National Urban and Community Forestry Advisory Council \$112,577  
Beyond the Tropical and the Quaint: People's Psychophysiological Responses to the Urban Forest  
 Andrew J Kaufman College of Tropical Agriculture and Human Resources  
 This project's purpose is to increase our understanding of the psychological benefits of trees using psychophysiological measures to reveal positive and negative relationships between people and the urban forest. Results will be targeted for educational programs, and assisting policy makers and developers attitudes about the importance of the urban forest.

#### National Aeronautics and Space Administration

National Aeronautics & Space Administration \$101,005  
Investing Midlatitude Ocean and Climate Dynamics using Satellite Altimetry and Modeling Analysis  
 Bo Qiu Department of Oceanography  
 Characterize and understand the nature and causes of the large-scale fluctuations in the midlatitude North and South Pacific Oceans on time scales from interannual to decadal.

National Aeronautics & Space Administration \$119,771  
Dynamics of Anisotropic Mean and Time-varying Structures of Ocean Circulation  
 Nikolai A Maximenko Department of Oceanography  
 Satellite data, in situ observations, and outputs of advanced numerical models will be used jointly to study the dynamics of anisotropic mesoscale stationary and propagating jet-like structures recently discovered in the upper ocean.

National Aeronautics & Space Administration \$400,000  
Origin and Evolution of the Solar System Through the Study of Extraterrestrial Materials  
 Klaus Keil Hawaii Institute of Geophysics and Planetology  
 Study of extraterrestrial materials such as meteorites from asteroids, Moon and Mars and returned lunar samples to understand the history of solid materials in the first few million years of Solar System history, and the formation of planetesimals, asteroids and planets.

National Aeronautics & Space Administration \$97,255  
Using the Near-Sun Neutral Helium to Probe the Corona  
 Elena Moise Institute for Astronomy  
 Cool neutral Helium (He I) is being observed near the Sun. Sensitive IR spectropolarimetry data using an off-axis

## Gifts, Grants, and Contracts for November 2008

### Research

#### National Aeronautics and Space Administration

reflecting coronagraph (SOLARC) from Haleakala reveal scattered photospheric light at 1083nm from HE I far above the solar limb. This project will support extended analysis and interpretation of this transient coronal constituent.

National Aeronautics & Space Administration \$311,700

ANITA: Antarctic Impulsive Transient Antenna

Peter W Gorham Department of Physics and Astronomy

To fly a long duration balloon mission to address the question of the nature and origin of the highest energy cosmic rays, and the ultimate limits of energy in the universe.

#### National Science Foundation

National Science Foundation \$123,416

CAREER: Crystallization Kinetics in Volcanology

Julia Eve Hammer Department of Geology and Geophysics

Experimental study of crystal nucleation, growth, and textural evolution in silicate magma.

National Science Foundation \$83,695

Collaborative Research: Hawaiian Plume Heterogeneity Revealed by Kilauea's Ongoing Eruption, Prehistoric Lavas and Olivine-hosted Melt Inclusions

Michael O Garcia Department of Geology and Geophysics

To analyze historical lavas from Kilauea volcano to evaluate the heterogeneity and melting processes in the Hawaiian plume.

National Science Foundation \$33,106

Graduate Research Fellowship Program

Rose Tseng Chancellor, University of Hawaii at Hilo-UHH

National Science Foundation \$139,190

NSWP: Tomographic Reconstruction of the 3-D Coronal Magnetic Field from Space- and Ground-Based Intensity and Polarimetry Data

Haosheng Lin Institute for Astronomy

A direct observational study of the 3-D magnetic field structure of the solar corona with the development of scalar and vector tomography tools for the reconstruction of the 3-D coronal magnetic field structure.

National Science Foundation \$2,687

CAREER: Bridging Modern Computational Capabilities and Observations of Solar Magnetic Fields with Expanding Solar Physics Education at the University of Hawaii

Ilia I Roussev Institute for Astronomy

## Gifts, Grants, and Contracts for November 2008

### Research

#### National Science Foundation

National Science Foundation \$47,800

Collaborative Research: Eclipse Observations of Heavy Ions, Neutrals and Dust Grains in the Solar Corona

Shadia R Habbal Institute for Astronomy

Observations of the total solar eclipses in 2008, 2009, and 2010 will study the coronal magnetic field and the underlying physical processes shaping the solar corona. The resulting data should provide powerful diagnostic tools for the exploring the physics of the corona and the acceleration region of the solar wind.

National Science Foundation \$232,673

CAREER: Bridging Modern Computational Capabilities and Observations of Solar Magnetic Fields with Expanding Solar Physics Education at the University of Hawaii

Ilia I Roussev Institute for Astronomy

We propose to combine recent theories and modern computational capabilities with advanced magnetic observations at the Sun's visible surface to improve present knowledge of coronal magnetic fields in coordination with existing observational solar research.

#### US Colleges and Universities

Hawaii Pacific University \$45,400

Ecological Factors and Drug Use of Native Hawaiian Youth

Susana Helm Department of Psychiatry

Examine the ecological risk and protective factors relevant to youth of Hawaiian ancestry in Hawaii.

Johns Hopkins University \$27,587

Modifying the Food Environment to Prevent Obesity Among Low Income Urban African American Children by Working in Food Stores, Schools and Community

Sangita Sharma Cancer Research Center

To develop, implement and evaluate a food and store based intervention program aimed to improve food consumption and reduce risk of obesity in African American children.

Johns Hopkins University \$32,225

Sustaining and Scaling Up a Successful Food-Store Based Program to Improve Diet and Reduce Risk for Obesity and Other Chronic Disease in Amer. Indians

Sangita Sharma Cancer Research Center

Develop and analyze a food frequency questionnaire to assess food and nutrient intake for the Navajo and Apache tribes in Arizona.

Northeastern University \$60,608

Endocannabinoid Active Sites as Therapeutic Targets

Marcus A Tius Department of Chemistry

Preparation through chemical synthesis of a series of organic small molecules to use as probes for biological function.

University of Arizona \$82,025

Vegetation Phenology and Vegetation Index Products from Multiple Missions and Satellite Sensors

Tomoaki Miura Department of Natural Resources and Environmental Management

Characterize the potential impacts of spectral bandpass differences across multi-sensors (AVHRR, MODIS, and VEGETATION) on the derived phenology and EVI/EVI-2 products, and derive spectral transformation equations accompanied with associated uncertainties. Assemble and stage 1 km daily MODIS data and limited sets of daily

## Gifts, Grants, and Contracts for November 2008

### Research

#### US Colleges and Universities

1 km AVHRR and SPOT-4 VEGETATION data for regional-scale analyses (the conterminous USA). Assist in deriving a moderate resolution (500 m or 1 km), regional phenology product using daily 1 km MODIS reflectances with limited sets of daily 1 km AVHRR and SPOT-4 VEGETATION reflectances.

<p>University of California, Irvine</p> <p><u>Immunodominance in Dengue-Specific T Cell Responses</u></p> <p>Allison Imrie Office of Public Health Studies</p> <p>We aim to understand mechanisms determining memory and recall responses in secondary dengue virus infection. These findings are directly applicable to dengue vaccine design that may improve safety by avoiding potential cross-reactivity in T cell responses.</p>	<p>\$147,150</p>
<p>University of California, Santa Cruz</p> <p><u>Partnership for Interdisciplinary Studies of the Coastal Ocean (PISCO)</u></p> <p>Margaret Anne McManus Department of Oceanography</p> <p>The object of this activity is to bring specialists together across disciplines; analyze subtidal, intertidal, and oceanographic findings collectively; and develop a more synthetic view of the processes that occur in coastal waters. Our ultimate aim is to move toward a capability for forecasting the effects of climate change on the ecology of coastal waters.</p>	<p>\$11,816</p>
<p>University of Georgia</p> <p><u>Functional Genomics of Maize Centromeres</u></p> <p>Gernot G E Presting Department of Molecular Biosciences and Bioengineering</p> <p>Chromosome movement during cell division is controlled by the centromere. The proper segregation of chromosomes into the two daughter cells during cell division is required for survival, making the centromere an extremely important chromosomal region. The DNA and protein components of corn centromeres will be studied with the intent of identifying the critical components for making an artificial chromosome.</p>	<p>\$226,229</p>
<p>University of Southern California</p> <p><u>Characterizing Genetic Susceptibility to Breast and Prostate Cancer: the BPC3</u></p> <p>Loic Le Marchand Cancer Research Center</p> <p>The major goal of this project, which is part of the "Cohort Consortium," is to allow for large-scale analyses of breast and prostate cancer risk in relation to genetic polymorphisms and gene-environment interactions that affect hormone metabolism.</p>	<p>\$168,239</p>
<p>University of Vermont</p> <p><u>Sex Chromosomes in Fetal Programming of Susceptibility to EAE</u></p> <p>Monika Anna Ward Dept Anatomy, Biochemistry, Physiology and Reproductive Biol</p> <p>The objective of this collaborative project is to define how the organizational masculinization of experimental allergic encephalomyelitis (EAE) in female mice by action of the Y chromosome-encoded susceptibility locus (Yeae) is achieved during gestation, and to identify the mechanism of action of Yeae that is mechanistically most relevant to multiple sclerosis (MS).</p>	<p>\$152,535</p>
<p>Utah State University</p> <p><u>Enhancing Phyto-nutrient Content, Yield and Quality of Vegetables with Compost Tea in the Tropics</u></p> <p>Theodore J. Radovich Department of Tropical Plant and Soil Sciences</p> <p>This project includes research and educational activities to improve the efficacy of compost tea and increase the role of renewable resources in Hawaii agriculture.</p>	<p>\$64,909</p>

## Gifts, Grants, and Contracts for November 2008

### Research

**Subcount: 99 Subtotal: \$17,778,598**

### Non-Research

#### DA-Dept of Agriculture

Department of Agriculture \$714,836

4-H Navy Youth Development Partnership Project

Carol S Ikeda Department of Family and Consumer Sciences

To establish 4-H clubs and projects for Navy children and youth on and away from installations by providing Navy Child and Youth Program staff with the tools needed to organize 4-H clubs/programs.

#### DHHS-Dept of Health and Human Services

Department of Health & Human Services \$750,000

JOB'S MED: Hire Abilities - Hawaii

Robert A Stodden Center on Disability Studies

Conduct study of employment supports health-care coverage delivered by DHHS, Vocational Rehabilitation. Project will build an analysis on creative industries & cultural tourism to expand career opportunities.

Health Resources and Services Administration/DHHS \$377,585

Pacific Island Geriatric Education Center

Patricia Blanchette Department of Geriatric Medicine

Health care professionals training in Geriatrics.

National Heart, Lung, and Blood Institute/NIH/DHHS \$144,990

Cardiovascular Autonomic Function in HIV Virologic Failure

Dominic Cheung Chow Pacific Biosciences Research Center

To determine the autonomic function of HIV-infected individuals with viremia compared with HIV-infected individuals with virologic suppression.

National Institute of Mental Health/NIH/DHHS \$7,500

Outreach Partnership Program

Alexander M Wylie Social Science Research Institute

To be the state-wide representative for the NIMH outreach partner activities. Promote mental health awareness.

National Institutes of Health/DHHS \$7,500

2008 National Nutrient Databank Conference Proceedings

Suzanne P. Murphy Cancer Research Center

Publication of the proceedings of the 32nd National Nutrient Databank Conference held in Ottawa, Canada on May 13-14, 2008.

National Institutes of Health/DHHS \$656,882

Model State-Supported Area Health Education Center

Kelley Marie Withy Department of Complementary and Alternative Medicine

Improve diversity, distribution, and quality of the health professions workforce.

## Gifts, Grants, and Contracts for November 2008

### Non-Research

#### DOD-Department of Defense

DOD-Army National Guard	\$25,000
<u>Team PLUS: Hawaii Enforcement Underage Drinking Laws (EUDL)</u>	
Cheryl L. Albright	Cancer Research Center
Conduct a survey to determine the rate of alcohol sales to underage youth who order alcohol in on-premise liquor establishments on and around Hickam AFB.	
DOD-Naval Research Laboratory	\$139,466
<u>Supplement to: R/V KILO MOANA Ship Operations and Technical Support Services</u>	
Brian Taylor	School of Ocean and Earth Science and Technology
The present request is for funds to overhaul the #4 Main Engine.	
Office of Naval Research	\$39,000
<u>Aha Huliko'a Workshop Series</u>	
Peter Muller	Department of Oceanography
Proposal is for funding the 15th 'Aha Hulikoa Hawaiian Winter Workshop, to be held in January of 2007, at the East West Center Asia Room.	

#### DOI-Dept of Interior

U.S. Geological Survey/Department of the Interior	\$43,946
<u>Biodiversity Research Program</u>	
Clyde M Sakamoto	Chancellor, Maui Community College
This cooperative agreement will allow USGS to co-locate at Maui Community College and involve students, faculty and staff to participate in biodiversity research and fieldwork including the modeling of spatial data.	

#### ED-Dept of Education

ED-Dept of Education	\$132,438
<u>Improving Student Success, Transition and Retention</u>	
Peggy T Cha	Chancellor, Kauai Community College
The purpose of this grant is to strengthen the retention, graduation and success rates for the under-prepared student population at Kauai Community College by implementing a campus-wide College Success program which is modeled on the already successful case management pilot program and the EPSCoR funded Academy for Future Nurses.	
ED-Dept of Education	\$77,491
<u>Hawaii Project for Children and Young Adults who are Deaf-Blind</u>	
Kelly D Roberts	Center on Disability Studies
Provide Technical Assistance and Training to service providers, families, and youth in the state of Hawaii - associated with Deaf-Blindness.	
ED-Dept of Education	\$405,463
<u>Improve Success of Pacific Islander</u>	
Luoluo Hong	Vice Chancellor for Student Affairs-UHH

## Gifts, Grants, and Contracts for November 2008

### Non-Research

#### ED-Dept of Education

ED-Dept of Education	\$250,000
<u>Upward Bound Rural Program</u>	
Leonard Woods	Vice Chancellor for Student Affairs-UHH
Matriculation of high school seniors from selected high schools to enter post secondary institutions	
ED-Dept of Education	\$132,402
<u>Creating Purposeful and Sustainable Pathways in Student Services, Professional Development, and 21st Century Career Programs for Improved Student;</u>	
Leon Richards	Chancellor, Kapiolani Community College
Kapiolani Community College's goal in this Title III undertaking is to create three learning support pathways across the First-Year and Second-Year Experience, and into transforming marketplace, to support greater academic and career achievements for Native Hawaiian and other pathways students.	
ED-Dept of Education	\$92,000
<u>Pacific Project for Children and Young Adults Who are Deaf-blind</u>	
Kelly D Roberts	Center on Disability Studies
Provide Technical Assistance and Training to service providers, families, and youth throughout the Pacific Jurisdictions - associated with Deaf-Blindness.	

#### Federal Agencies

Department of Justice	\$226,106
<u>Hawaii Innocence Project</u>	
Aviam Soifer	William Richardson School of Law
Provide legal assistance, free of charge, to prisoners who have credible claim of actual innocence of the crime(s) for which they are imprisoned.	
General Services Administration	\$229,102
<u>University of Hawaii Participation in PEPFAR HIV/AIDS/STI Peer Education Program for the Vietnamese Military</u>	
Cathy Nguyen	Department of Medicine
To support and scale up HIV/AIDS/STI prevention and peer education activities targeting the Vietnamese military.	
General Services Administration	\$597,574
<u>University of Hawaii Participation in PEPFAR Prevention and System Strengthening Programs, for Vietnamese Military</u>	
Cathy Nguyen	Department of Medicine
To support peer-based prevention activities targeting the Vietnamese military, and to foster an environment for progressive HIV/AIDS policies within the Vietnamese military.	
Peace Corps	\$2,990
<u>Collaboration for Peace Corps Recruiting Activities at the University of Hawaii Campuses</u>	
Rosemary Casey	College of Education

## Gifts, Grants, and Contracts for November 2008

### Non-Research

#### Foreign

Endangered Language Documentation Programme	\$19,792
<u>Documentation of Inati, and Endangered Negrito Language of the Central Philippines</u>	
Kenneth L Rehg	College of Languages, Linguistics, and Literature
This project aims to create archive-quality audio and video recordings of Inati, an endangered Negri to language on Panay Island in the Philippines. Audio and video data will be recorded, transcribed, glossed, and translated for further analytical use. Survey work will also be done to identical dialect variation within Inati.	
Subaru Telescope	\$60,000
<u>HiCIAO Performance Evaluation with AO</u>	
Klaus W Hodapp	Institute for Astronomy
Fabricate interface module, install the interface in preparation of observing with the new instrumentation and evaluation of the performance of the instrumentation.	
The German Institute for Geosciences & Natural Resources	\$1,553,293
<u>RV Kilo Moana MANGAN 2009 Cruise</u>	
Brian Taylor	School of Ocean and Earth Science and Technology
Support for vessel operations on a 36-day research cruise on R/V Kilo Moana for German Federal Institute of Geosciences & Natural Resources.	

#### Hawaii- Business and Other

Alu Like	\$136,771
<u>Oihana, Native Hawaiian Career &amp; Technical Education Project</u>	
Earl K Nishiguchi	Chancellor, Kauai Community College
The project will provide students internship opportunities and course work.	
Alu Like	\$190,464
<u>Native Hawaiian Digital Arts Project</u>	
Violet S Murakami	Chancellor, Hawaii Community College
The project proposes to teach digital arts courses to Native Hawaiian students for the recruitment, retention and completion of Native Hawaiian students into the DMA program at Hawaii CC.	
Alu Like	\$231,998
<u>Alu Like FY2009, Naative Hawaiian Career and Technical Education, Kulia Ma Kapiolani Project (Year 2).</u>	
Mona Lee	Chancellor, Kapiolani Community College
Offer a suite of culturally-based services to students that recruit, enroll, and support academic completion of career and technical education degrees and certificates. Partner with Castle High Schools Health Career Academy Project to create a clearly defined pathway from high school to college and to related employment in the career pathway.	
Hawaii Farm Bureau Federation	\$17,600
<u>2008 Hawaii Tea Educational Outreach Program</u>	
Stuart T Nakamoto	College of Tropical Agriculture and Human Resources
To conduct extension-outreach for Hawaii Tea Program.	

## Gifts, Grants, and Contracts for November 2008

### Non-Research

#### Hawaii- Business and Other

Hawaiian Electric Co Inc \$749,157  
Oahu Electrical System Analysis  
 Richard E Rocheleau School of Architecture  
 Collect data and perform preliminary analysis of the suitability of this data for future model (MAPS and PSLF models) development of the Oahu Electric Company (HECO) grid. These models will provide valuable insights.

#### Hawaii- Government Agencies

County of Hawaii \$10,000  
Imiloa Marketing Program 2008-2009  
 Rose Tseng Chancellor, University of Hawaii at Hilo-UHH  
 Expand Imiloa's marketing capabilities and to build its base for tourists

DLNR-Division of Aquatic Resources \$37,500  
Development and Training of a Local Team for Rapid Response of Events of Coral Bleaching or Disease on the Reefs of Hawaii  
 Greta S Aeby Hawaii Institute of Marine Biology  
 The goal of the project is to assemble, train and equip a local team for rapid response for events of coral bleaching or disease in Hawaii. A response team is needed to provide assessments regarding the extent and impact of events and recommendations for mitigation.

DLNR-Division of Aquatic Resources \$536  
IYOR Maui Event: Invasion of the Reef Snatchers  
 Michael P Hamnett Social Science Research Institute  
 HCRI will be hosting a family outreach event at the Kaahumanu Shopping Center on Maui. The theme is invasion of the Reef Snatchers. The public will learn about Maui's special near shore ecosystems, things affecting the waters, and what they can do to become good stewards of the land and sea.

Dept Of Agriculture is abbreviated as DA (also DOA or DOA). related. The list of abbreviations related to DA - Dept Of Agriculture. FAO Food and Agriculture Organization. RFI Request for Information. APEC Asia-Pacific Economic Cooperation. NIFA National Institute of Food and Agriculture. PART Program Assessment Rating Tool. ASTHO Association of State and Territorial Health Officials. FMI Food Marketing Institute. NCFST National Center for Food Safety and Technology. CIFOR Council to Improve Foodborne Outbreak Response. DEQ Department of Environmental Quality. HACCP Hazard Analysis and Critical The Department of Agriculture (DA) promotes agricultural development and growth. In pursuit of this, the DA provides the policy framework, helps direct public investments, and, in partnership with local government units (LGUs), provides the support services necessary to make agriculture and agri-based enterprises profitable and help spread the benefits of development to the poor, particularly in the rural areas. The Department needs to formulate and install strategies and measures that will reduce the production and marketing costs of agricultural products. The efficiency gains in both the production and distribution aspects will result in more affordable prices for consumers. Improved quality of agriculture and fishery products for global competitiveness. We are the UK government department responsible for safeguarding our natural environment, supporting our world-leading food and farming industry, and sustaining a thriving rural economy. Our broad remit means we play a major role in people's day-to-day life, from the food we eat, and the air we breathe, to the water we drink. Defra is a ministerial department, supported by 33 agencies and public bodies. The new measures are part of the Prime Minister's 10 Point Plan to help kickstart the nation's green recovery. Avian influenza (bird flu): Latest situation. 22 November 2020 News story. An Avian Influenza Prevention Zone has been declared across England, Scotland and Wales.
